An illustration of the Finance Charge Calculation:

Finance Charges are payable at the monthly percentage rate on all transactions from the date of transaction in the event of the Cardholder choosing not to pay his balance in full, and on all cash advances taken by the Cardholder, till they are paid back. Card Interest Rate is dynamic and will be based on the Cardholder's usage and payment patterns and is subject to periodic review. The rate of finance charges may increase to a maximum of 3.35% per month (40.2% per annum) from the transaction date. Finance charges, if payable, are subject to levy of Service Taxes and are debited to the Cardholder's account till the outstanding on the card is paid in full.

a. Finance charges on cash advances (if applicable) are applicable from the date of transaction until the payment is made in full Example 1 Card Statement date -2nd of every month Transactions done between 3rd March '13-2nd April '13 are as follows:

Retail Purchase of INR. 5000 – On 10th Mar'13; Cash Withdrawal (if applicable) of INR.7000 – On 30th Mar '13

Assuming no previous balance carried forward from the 2nd March 2013 statement, the cardholder will get his 2nd April statement showing 12,000 of transactions along with 3 days of finance charges at the rate applicable on the 7,000 cash withdrawal. The cardholder needs to make payment against the outstanding by 22nd April 2013, i.e. 20 days from the Statement date. Please note that all payments for a cardholder's SBI Corporate Card account has to be settled in full (Total Amount Due) by payment due date. The payment would be first cleared against taxes, followed by fees and other charges, interest charges, retail outstanding and Cash Balance (if any) last. In case of any previous balance being carried forward from the previous statement, finance charges will be levied from the previous statement date (unless in the case of non-interest levied outstanding retail balance where the finance charge is levied from the date of the transaction).

b. In case the statement outstanding has no cash balance and has not been carried forward from a previous statement and the retail balance outstanding on the statement date is paid in full by the payment due date, No Finance Charges are levied on such balances.
